EDUCATION

University of Ottawa

Honours B.Sc., Computer Science — GPA 3.7/4.0, Dean's Honour List

Ottawa, ON

Expected 2028

TECHNICAL SKILLS

Languages: Python, JavaScript/TypeScript, Java, C/C++, SQL

Frameworks & Tools: FastAPI, React, Node.js, Docker, Git, PostgreSQL/pgvector, REST APIs, pytest

ML & Data: Agentic RAG, local LLM inference (Ollama, DeepSeek-R1), hybrid retrieval (BM25, cross-encoder reranking), XGBoost, PyTorch

Infrastructure: Linux, Proxmox virtualization, cloud VPS deployment, Cisco networking (OSPF, BGP, IPsec VPN)

PROJECTS

MedOfficeAI | Python, FastAPI, Ollama, DeepSeek-R1 | [GitHub](#)

2026

- Built a local-first clinical AI assistant with an agentic RAG pipeline, keeping all patient data on-device for privacy.
- Implemented a medical billing-code agent reaching **92% accuracy** across 35 labeled test cases and an **85% latency reduction** (4.8s → 0.7s).
- Owned the billing agent, FastAPI backend, and frontend; emphasized modular architecture and documentation under hackathon time pressure.

Sage | Python, FastAPI, pgvector, Docker | [GitHub](#)

2026

- Production-grade agentic RAG system answering natural-language queries over large-scale technical documentation.
- Hybrid retrieval merging dense semantic search (pgvector) with BM25 via reciprocal rank fusion; fully containerized ingestion and query pipelines in Docker.

Celsius — IoT Environmental Monitor | ESP32, C/C++, React Native, ML | [GitHub](#)

2026

- Won **1st place** (\$500, cycle analysis) at uOttawa Design Day against 30+ teams for a deployed environmental monitoring system.
- ML anomaly-detection layer achieving a **92% detection rate** at 7% false-positive rate, validated over 16 weeks across 8 conditions.

Cisco Networking Homelab | Cisco ASA, ISR routers, Proxmox, Python

2025–2026

- Built a 5-device lab (ASA 5520, 2911 ISRs, L3 switch) covering OSPF, BGP, GRE tunnels, IPsec VPN, and QoS; ran a Proxmox host with a site-to-site VPN to a cloud VPS.
- Automated device polling with a Netmiko/SSH script, replacing 15+ manual CLI commands (22 pytest assertions passing).

EXPERIENCE

Founder & Operator

2018 – Present

Benny Blends Barbershop

Ottawa, ON

- Founded and operate an independent barbershop business started at age 13, owning scheduling, finances, and client retention alongside a full course load.

Plumbing & Mechanical Technician

Sep 2025 – Feb 2026

TPH Plumbing and Heating

Ottawa, ON

- Ran mechanical installs on heritage residential and condo contracts while enrolled full-time, demonstrating reliability under demanding schedules.

Competitive Soccer Coach

2021 – 2025

Ottawa South United

Ottawa, ON

- Coached youth competitive soccer, building leadership, communication, and team-management skills.
